

Group8

Ground Station Network

Group8 Ground Station Network

Current situation

- Collaborated data receiving is the main activity
- We want to increase more collaborating stations in other countries
- UNISEC GSN is ready to cooperate with other ground station network communities
- Ghana All Nations University is currently West African point of contact for UNISEC GSN

Group8 Ground Station Network

Future activity towards next

UNISEC Global meeting

- GMS/GROWS
 - including legacy system → must be upgraded
 - + scheduling
 - + status sharing
 - + booking
- To make compatibility with the framework of the standard Software of Cal Poly & Wurzburg university
 - have development discussions & activities
