Group8
Ground Station Network
Group8 Ground Station Network

Current situation

• Collaborated data receiving is the main activity

• We want to increase more collaborating stations in other countries

• UNISEC GSN is ready to cooperate with other ground station network communities

• Ghana All Nations University is currently West African point of contact for UNISEC GSN
Group 8 Ground Station Network

Future activity towards next UNISEC Global meeting

- GMS/GROWS
  → including legacy system → must be upgraded
  + scheduling
  + status sharing
  + booking

- To make compatibility with the framework of the standard Software of Cal Poly & Wurzburg university
  → have development discussions & activities
