

Discussion Group #8

Ground Station Network (GSN) through UNISEC-Global network

- Access to Ground Stations are important for all satellite activities
- Many existing Ground Stations available.
- Collaboration needed to increase data downlink
- As a first step to create the network
 - Share information with network candidate
 - Ground Station Capability
 - Contact Person
 - etc

Discussion Group #8

Ground Station Network (GSN) through UNISEC-Global network

- Opportunities for research and training
 - Orbital detection and estimation
 - Movable antennas
 - Antenna design
 - Affordable solutions
- Opportunity to exchange information about common issues
- What is the best way to share information?
