- Format: Online
- Participants: Students, educators, researchers, space professionals, UNISEC members and partners worldwide
- Language: English
- Admission fees: Students and UNISEC members: Free
(Non-students and Non-UNISEC members: 20 USD)

Purpose and Objectives

- The purpose of the 12th UNISEC-Global Meeting is to bring together people engaged in university space activities and explore how their actions, connections, and new ideas can contribute to 2030-ALL — expanding opportunities for practical space activities, opening new possibilities from Earth orbit to the Moon and beyond, and pursuing them responsibly and sustainably.
- The 12th UNISEC-Global Meeting aims to:
 - Encourage individual initiatives and create new connections that can lead to practical space activities and collaboration.
 - Explore the future of university space engineering education, including responsible and sustainable approaches to real space activities.
 - Expand the possibilities for university space activities through emerging technologies such as AI, collaboration with industry and space agencies, and growing opportunities for missions from Earth orbit to the Moon and beyond.
 - Share ideas and opportunities that can contribute to 2030-ALL and future collaboration.
