Facts:

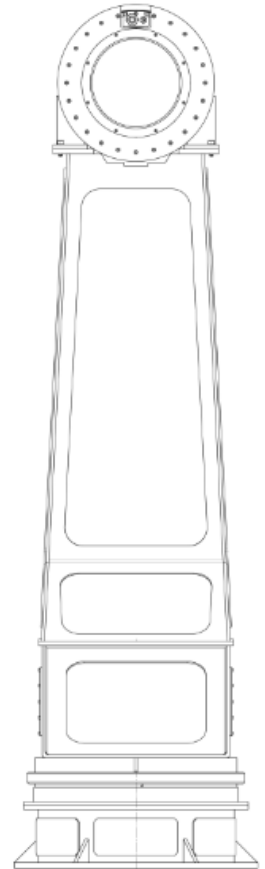

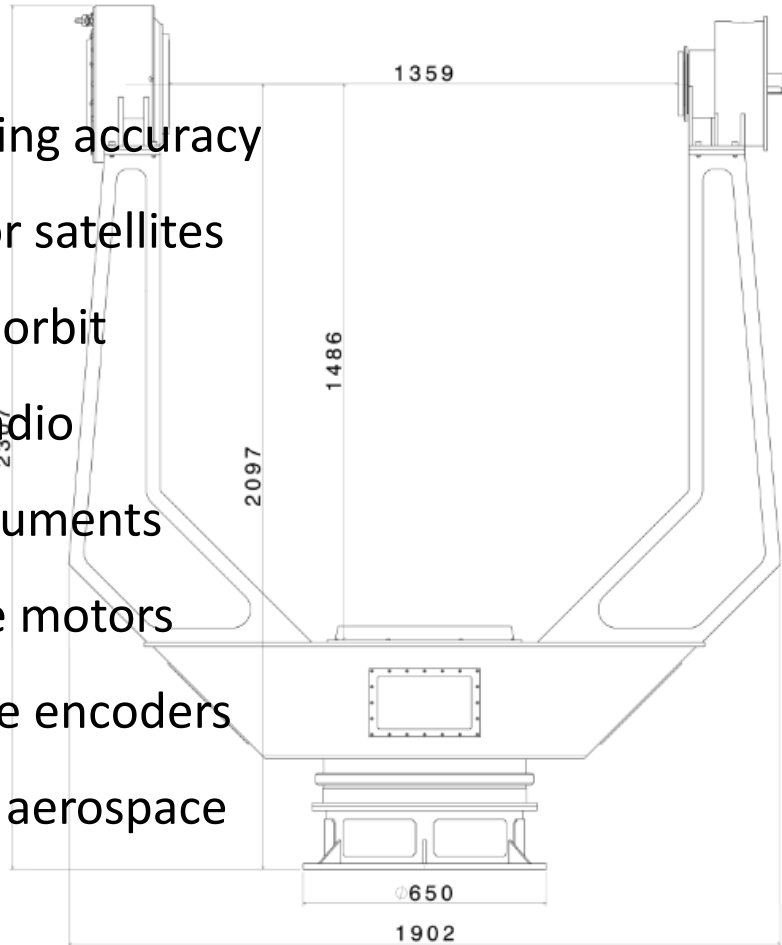

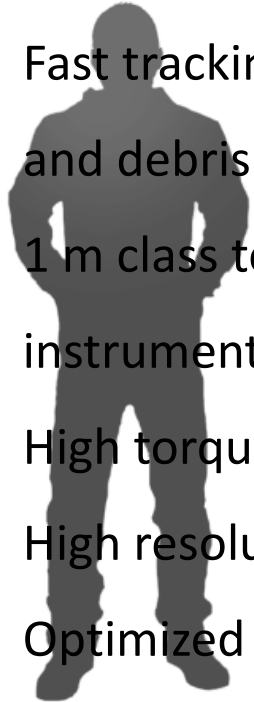

common Cubesat orbits

m

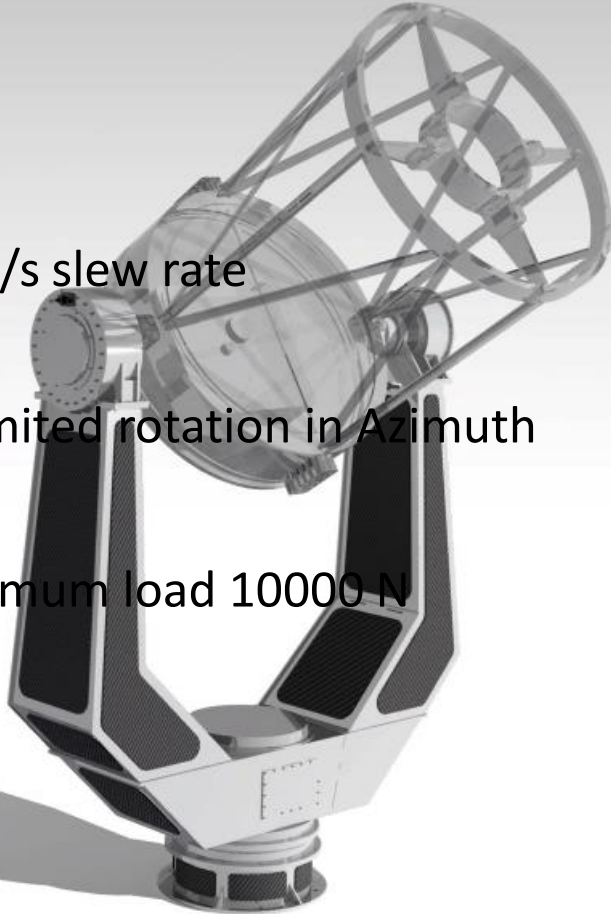

MORAL

- High pointing and tracking accuracy
- Fast tracking suitable for satellites and debris in low Earth orbit
- 1 m class telescopes/ radio instruments/ laser instruments
- High torque direct drive motors
- High resolution absolute encoders
- Optimized design using aerospace tools
- First quality industrial components

MORAL

- $> 30^\circ/\text{s}$ slew rate
- Unlimited rotation in Azimuth
- Maximum load 10000 N

Tempo: 0.0
