Ahmedabad-380058, Gujarat, India.

# My Experience at CLTP-14

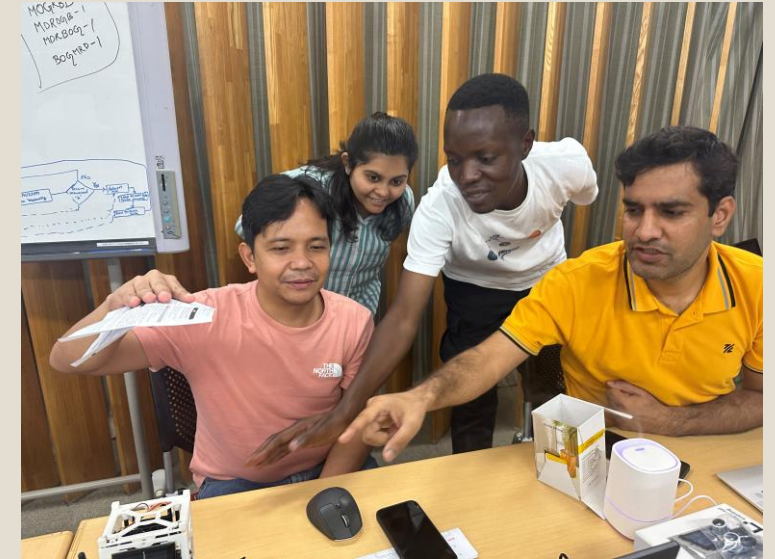

- Participated in CanSat Leader Training Program – CLTP-14
- Held in Japan, August 2025
- Privilege to share experience at 60th UNISEC Global Meeting

# What I Learned at CLTP-14

- Practical Exposure → system design, integration, launch & operation
- Global Teamwork → worked with participants from diverse cultures
- Spirit of Innovation → turned challenges into learning opportunities

# How CLTP-14 Impacted Me

- Strengthened my belief in “Learning by Doing”
- Motivation to inspire students & young engineers
- Plan to bring CanSat/CubeSat methodology to India
- Inspired by UNISEC Japan's model of education + technical rigor

# Carrying the CLTP Spirit Forward

- Integrating lessons into SanskarSat mission & outreach
- Engaging students through hands-on space projects

“CLTP-14 was not just training, but a global classroom of collaboration, creativity, and commitment to space for humanity. I am honoured to share this journey and carry these lessons forward. **Thank you.**”
