- When and where
- Why in Taiwan?
- How
- What

UNISEC TAIWAN including National Cheng Kung University, National Central University, Tamkang University, National Taiwan Ocean University, National Formosa University, and Chung Cheng Institute of Technology will do our best to organize and host the 2026 UNISEC-Global Meeting and Nano-satellite Symposium.

The 2026 UNISEC-Global Meeting and Nano-satellite Symposium will be jointly held (same date and venue) with TASTI 2026 to seek for in-depth discussions and collaborations in space-related research and business.

When and Where

- 2026
 - UNISEC-GLOBAL Meeting
 - Nano-satellite Symposium
- Date: **November 8 (Sun) – 11(Wed), 2026**
- Venue: International Convention & Exhibition Center (ICC), Tainan, Taiwan

Why

- Taiwan has regarded space as an important enabler in the push of technology advance, build of industry, and support of national security.
- The government has initiated several programs to stimulate the development of space technology and space business.
- The biennial Taiwan International Assembly of Space Science, Technology, and Industry (TASTI) 2026 will be held at the same time and venue.
- The UNISEC-GLOBAL and NSAT will be held jointly with TASTI.
 - Independent event and agenda
 - In-depth interactions with researchers, professors, and students
 - Exhibitions of international and companies and organizations
 - Abundant opportunities for collaborations

How

- The conference expenses will be covered by:

- Registration fees
- Donation
- Other resources
 - National Cheng Kung University
 - Ministry of Science and Technology, Taiwan
 - National Space Organization, Taiwan

- The conference preparation and operation will be initiated by:

- UNISEC TAIWAN
- National Cheng Kung University

What

- UNISEC-GLOBAL Meeting
 - Regional report
 - Student session
 - POC meeting
 - Workshops
 - Panel discussions
 - Sponsor presentations
 - Reception (Nov. 9)
 - Banquet (Nov. 10)
 - Cultural tour (Nov. 12)

You are Welcome

- Please join us for an insightful exploration of space technology and its applications.
- Connect with experts, researchers, and enthusiasts from across the globe as we delve into the latest advancements in space business.
- Experience Taiwan's culture and natural beauty while expanding your knowledge and network in this field.
- Save the date for UNISEC-GLOBAL 2026 and be part of this enriching event.
