Nano-satellite IoT Constellation Program

UNISEC-Global has launched a new program.

Assumptions

- Jointly design satellite bus (3-6U) with online guidance (education).
- Each satellite will be developed by each country with its own funding or if difficult, we will jointly search for international funds.
- All the satellites have the **same mission payload** to contribute to solving global problems or local problems, etc., as a **constellation**.
- Each country can have **one specific mission payload** for its own interest.

Web: <https://unisec-global.org/iot.html>

If you are interested in this program, please submit the form to join.

Nano-satellite IoT Constellation Program Milestone

Launch opportunities (ISS deployment)

- J-CUBE
 - Special (discounted) launch opportunities
 - 1U, 2U, 3U
 - Deployment from International Space Station
 - Collaborate with a UNISEC-Japan's university
 - Technical support will be provided
 - **Application deadline: August 13, 2026**
